

POLICY DOCUMENT STICHTING PROTECT UKRAINE

11 APRIL 2025

1. Goals, Strategy, Vision and Mission

Our Goals

To support a free and sovereign Ukraine in its fight for freedom against its former colonial master Russia by:

- Providing non-lethal support to individual units of the Armed Forces and National Guard of Ukraine, Tactical Medical Organisations and others involved in the war against Russia;
- Inform the European public as widely as possible about the war in Ukraine and its consequences and advocate for support to Ukraine;
- To promote documentation of the war and its consequences for the Ukrainian people.

Our Strategy

- To raise money from sponsors, procure non-lethal materials and services (weapons are expressly excluded) and deliver those directly to selected military units and other beneficiaries in Ukraine;
- To organise or support informational events, media campaigns, publications and other public awareness campaigns;
- To provide support to organisations and individuals who document the war and its consequences.

Our Vision

We will resist by any peaceful means the unprovoked Russian war against Ukraine which is a criminal violation of the rights to peace and freedom of Ukrainians and an attack on the global order which mandates non-violent resolution of conflicts between states and on values of democracy, international rules, freedom and human dignity affecting all people of the world. This battle is the frontline of the fight for freedom and democracy against autocracy in Europe and the wider world.

Our Mission

Our mission is to support the Ukrainian people and its Military until the war against Russia ends, the damages are recovered and the perpetrators of war crimes and crimes against humanity are prosecuted.

2. Period of validity
